Statement of Company Environmental Policy

Turosi, as a leading food manufacturer, and agricultural producer, is committed to operate in an environmentally aware and responsible manner. Promoting a strong environmental ethic throughout the Company is part of the company culture.

Turosi will pursue **compliance with applicable regulatory requirements, meeting our General Environmental Duty and mutually agreed customer expectations.** We will do this by:

1. Operating all locations in compliance with local, state and federal environmental legislation.
2. Determine alongside key customers relevant standards and resulting expectations for supply.
3. Ensuring that adequate human and financial resources are available and committed to implement and maintain an integrated Environmental Management System.
4. Implementing systems and programs that assess and reduce the risk of environmental contamination, preventing pollution and optimize waste management to minimize, segregate, reuse, and recycle waste throughout our operations.
5. Reducing the environmental footprint and resource usage of operations and supply chain through improving efficiencies, implementing sustainable strategies in the use of energy, water, natural resources, and raw materials.
6. Maintaining, through regular review and assessment, an Environmental Management System that identifies and assesses risk, while also monitoring usage patterns and waste generation.
7. Promoting an understanding and acceptance of the environmental relationships in our company through relevant training and information for our employees, visitors and suppliers.
8. Pursuing mutually beneficial involvement with contractors, suppliers, customers, government bodies, the community and environmental interest groups to reduce our net environmental impact and promote this policy.
9. Communicating effectively with government departments, customers and the interested community and our employees with relation to relevant environmental issues.

Mark Heintz
Chief Executive Officer
