Stakeholder Engagement Activities

Stakeholder Engagement Activities

Stakeholder	Nature Of Engagement	Feedback
Department of Premier and Cabinet	Meeting with Premier Roger Cook and members of DPC to brief them on project Regular meetings with Collie Delivery unit of DPC	Strong support for project and longer term vision of GSWA to create a sustainable steel industry in WA. Working closely with DPC on securing Collie Industry Transition Fund (CITF) grant for execution.
Department of Jobs, Tourism, Science and Innovation (JTSI) Southwest Development Commission (SWDC)	Regular meetings with Collie unit of JTSI and SWDC	Strong, ongoing support for project including introductions to key government departments and GTE's such as DWER, Synergy, Port of Fremantle, Water Corp, DPLH and DevWA.
DWER	Meeting with Director for resource recovery and team	Great interest in project as it will complete WA's circular economy for steel.
EPA - DWER	Environmental approvals pathway	In support of Part V approval pathways for the works approval process.
DMIRS	Dangerous Goods	Preliminaries assessment carried out by dangerous goods consultants. No concern raised at this stage by DMIRS on the proposed storage on site.
Collie local Community	Feedback on the proposal design	Generally supportive and encouragement to further promote the proposal in local community.
Local Council – Shire of Collie	Meetings with shire CEO, shire president and planning team	Positive feedback received and great support, help and advice.
Unions (AMWU led engagement)	Regular meetings with Secretary for WA and Community and Campaigns Organiser	Unions are very excited about the project as they feel it is the most likely project on the horizon which will provide comparable employment for their members (industrial jobs).
Just Transition Working Group	Project overview presentation at the April JTWG meeting	Great enthusiasm from the room. Two main questions that came back were around increased traffic (mitigated by rail) and increased noise and emissions (minimal noise and emissions).
Collie and Southwest Community	Radio station broadcast Collie River Bulletin articles (2x) Just transition working group podcast Collie Just transition news Community forums and drop-in sessions	https://www.colliebulletin.com.au/news/green-steel-advances https://issuu.com/colliebulletin/docs/meganapril13 https://podcasts.apple.com/au/podcast/ep14-the-new-industries-with-eyes-on-collie/id1598850943?i=1000624756699
Griffin Coal	Multiple meetings Memorandum of understanding	Griffin strongly support the project. We are working closely together to facilitate flora and fauna surveys as well as to share rail facilities.
Synergy	Meeting with Synergy's external relations team at Collie Briefing of Synergy and JTWG	Excited about project Keen to work together
Bluewaters Power Station	Briefed Bluewaters representative at JTWG meeting	Positive response to project.
Bluewaters Farm Holdings	Regular meetings with owners	Owners strongly support the project. Working closely together to bring infrastructure into the area which will support land development for both Bluewaters and Coolangatta.
Other Proponent	Meetings with key personnel from another Proponent	Working together to align infrastructure requirements

Stakeholder	Nature Of Engagement	Feedback
International Graphite	Meetings with key personnel from Magnium Most recent being visit from Greg Combet to Collie	No issues.
Western Power	Meetings for power connection	Enthusiastic about the project and the benefits to Collie and the state.
Water Corporation	Meetings for water connection	Enthusiastic about the project and the benefits to Collie and the state.
